

Salem Health Hospitals & Clinics – Provider Groups and Facilities Tier List

All medical plans cover the same types of medical services but at different benefit levels based on the network tier of your provider. Your provider's tier impacts how much you pay toward your:

- Deductible (the amount you pay for covered health care before your plan starts to pay)
- Cost-sharing (the amount you pay for covered health care after you meet your deductible)
- Out-of-pocket maximum (the annual limit before your plan covers 100% of costs)

This document lists the provider groups and facilities within each tiered network as of Jan. 1, 2024.

If you need any assistance, please contact a Health Navigator at 855-425-4543 (Mon. through Fri. from 7:30am - 5:30pm) or email medical@modahealth.com

Tier I

The Tier I medical network will cover services at the highest benefit level. It is limited to providers of the following:

- Salem Health Hospitals & Clinics and facilities
- West Valley Hospital

For a full list of Salem Health provider locations, please visit salemhealth.org/locations

You may also view a list of [Salem Health providers accepting new patients](#). This list is updated frequently, and you must be a Salem Health employee logged onto the Salem Health network in order to access it.

Please note: Some specialists (e.g. pathologists and radiologists) are not Salem Health employees or our affiliates' staff, but are contracted specialists and are paid under Tier II or III. Not all services have a Tier I provider.

Tier II

The Tier II network utilizes Moda's Connexus network and includes providers and clinics that generally provide services that are not available at Salem Health Hospitals & Clinics. This includes, but is not limited to:

- Salem Clinic
- OHSU Hospitals and Clinics
- Legacy Emanuel Medical Center
- Legacy Randall Children's Hospital
- Oregon Oncology Specialists
- Moda's network of independent behavioral health and alternative care providers
- Moda's network of providers that supply durable medical equipment

If you have any questions, please reach out to a [Health Navigator](#) for assistance.

(List continues on next page)

Tier III

The Tier III medical network utilizes Moda's Connexus network and includes specific hospital systems, ambulatory surgery centers and provider clinics that provide the same services as Salem Health Hospitals & Clinics.
