[Waivers Ending December 31, 2023](#)

[Waivers Ending December 31, 2024](#)

[Items Not Changing with End of PHE](#)

### A. Additional History and Scope Information

1. **Beginning** - Effective for date of service March 6, 2020 in response to the declaration of a public health emergency (PHE) and CMS policy updates, we expanded our policies around telehealth services for all plans and members, making it even easier and safer for patients to connect with their health care provider during the COVID-19 outbreak.

2. This policy temporarily supplements RPM052, “Telehealth And Telemedicine Services” due to the COVID-19 public health emergency (PHE). The policy is meant to outline the expanded coverages and changes, rather than going into the extent and detail contained in RPM052.
3. **PHE Ends** - On January 30, 2023 the Biden Administration announced that the National Emergency (NE) and the Public Health Emergency (PHE) would end on May 11, 2023 (101-day notice). (CMS<sup>31</sup>, USNews<sup>65</sup>)
  - a. During the Federal PHE, waivers and exemptions were put in place by federal and state regulators to expand telehealth services.
  - b. Some of these waivers and exemptions end with the Federal PHE on May 11, 2023, and others have been extended through the end of 2023 and/or 2024 under the Consolidated Appropriations Act of 2022 and Consolidated Appropriations Act of 2023.
  - c. This policy is now being updated to specify the termination dates for each of the telehealth flexibilities, expansions, waivers, and exemptions from the PHE.
4. Applicable state telehealth expansions for the PHE:
  - a. Oregon Commercial and Medicaid plans:
    - i. The voluntary temporary agreement between certain insurance carriers and the State of Oregon to provide expanded telehealth options expired on June 1, 2021.
    - ii. In June of 2021, House Bill 2508 was signed into law, amending ORS 743A.058 to create new telehealth provisions stipulating that telemedicine shall be reimbursed at the same rate as in-person services. It also set parameters for telehealth services provided during a declared state of emergency. Our plan filings have been updated to reflect these revisions.
  - b. Alaska Commercial plans – the expanded coverage from the state of Alaska directives has been made permanent. Please refer to [RPM052, “Telehealth And Telemedicine Services”](#) for Alaska telehealth guidelines. (See AS 21.42.422 & SCS HB 29.)
  - c. Texas plans – All requirements of Texas Insurance Code Section 1455.004 resumed on September 20, 2021. (TDI<sup>30</sup>) Please refer to [RPM052, “Telehealth And Telemedicine Services”](#) for Texas telehealth guidelines.

## **B. New Patient versus Established Patient Determinations**

Telemedicine services count the same as an in-office visit for the purposes of determining if the patient is a new patient or an established patient when they are receiving future visits and services. This applies to all lines of business. For further detail, see RPM052, Section A.

### C. Ending on May 11, 2023.

The following expanded PHE provisions and telehealth waivers end on May 11, 2023 for all plans and lines of business, unless a specific line of business or variation is noted:

1. HIPAA violation penalties against providers using everyday communication technologies were waived by the HHS Office for Civil Rights during the PHE. The requirement for HIPAA compliance resumes on May 12, 2023. (HHS<sup>58, 59</sup>, FR<sup>60</sup>)

However, the HHS Office for Civil Rights has announced a 90-day transition period (or grace period) during which the OCR will continue to not impose penalties on covered health care providers for noncompliance with the HIPAA Rules that occurs in connection with the good faith provision of telehealth. [This grace period ends on August 9, 2023.](#) (HHS<sup>66</sup>)

2. Place of Service (POS) codes:

- a. For Commercial and Medicare Advantage plans:

For all telehealth services performed on 3/1/2020 through the end of the PHE, do not use POS 02 or 10, but instead:

- i. Bill with the Place of Service (POS) equal to what it would have been in the absence of a PHE.
- ii. Append modifier 95 (which CMS does not otherwise accept).
- iii. This will indicate that the service rendered was performed via telehealth during the PHE. (CMS<sup>18</sup>)
- iv. Beginning May 12, 2023, report telehealth services with POS 02 or 10 (whichever is appropriate based on the patient's location).

- b. For Medicaid plans, continue to bill using telehealth POS as before the PHE:

- i. Note: On Thursday, December 16, 2021 the Oregon Health Authority (OHA) notified us that OHP Medicaid will not be utilizing POS 10 at this time. Continue to use POS 02 for all Medicaid claims for services delivered using a telehealth modality until further notice from OHA.
- ii. Bill with modifiers GT, GQ, and 95. Refer to [RPM052, "Telehealth and Telemedicine Services"](#) for information.
- iii. For members with Medicare as primary, bill according to CMS guidelines. As secondary will process based on Medicare paid amounts, telemedicine coding doesn't have to match OHP claims coding to pay secondary in MMIS per OAR 410-120-1280.

3. Modifier "CR" was required during the PHE for some services, but was only voluntary, not required, on telehealth services. Discontinue use of modifier CR on date of service May 12, 2023. (CMS<sup>49</sup>)
4. Modifier "CS" was required during the PHE for medical visits (telehealth or non-telehealth) related to COVID-19 testing. Discontinue use of modifier CS on date of service May 12, 2023. (CMS<sup>44</sup>)
5. Condition code "DR" was required on facility claims during the PHE for some services. Discontinue use of condition code DR on date of service May 12, 2023. (CMS<sup>49</sup>)

6. During the PHE, cost-sharing did not apply for COVID-19 testing-related services (both telehealth and non-telehealth), including the visit when COVID-19 testing is performed or ordered.

For detailed information about what qualifies a visit to be related to COVID-19 testing, see 2020-04-07-MLNC-SE. (CMS<sup>19</sup>)

7. When the COVID-19 PHE ends, Medicare payment for virtual communication services (G0071) will no longer include online digital evaluation and management services and these services may only be provided to established patients. (CMS<sup>56</sup>) For Commercial plans and Oregon Medicaid plans, G0071 is for reporting-only and not eligible for separate reimbursement.

8. E-visits (online digital evaluation services, 99421-99423, 98970-98972, G2061-G2063).

E-visit procedure code descriptions state “established patients” but during the COVID-19 PHE these codes could be used for new patient visits also. (CMS<sup>17</sup>)

- a. Medicare Advantage plans:

Beginning on May 12, 2023, e-visits are only eligible to be used for established patients, consistent with the procedure code descriptions. (CMS<sup>51, 57</sup>) Note: E-visits are not considered telehealth by CMS; they are covered by Medicare separately from the telehealth rules.

- i. E-visits do not have rural location requirements.
- ii. Licensed clinical social workers, clinical psychologists, physical therapists, occupational therapists, and speech language pathologists can provide e-visits and report them using HCPCS codes G2061-G2063.

- b. Medicaid plans: Beginning on May 12, 2023, e-visits are only eligible to be used for established patients, consistent with the procedure code descriptions.

- c. Commercial plans:

Prior to the PHE, online digital evaluation services (E-visits) using non-real-time technologies, such as email, provider portal communication, and instant messaging were not covered benefits on standard Commercial plans or were considered included in the reimbursement for any related face-to-face services performed before or after the contact. Telehealth services were expanded during the PHE to include communication methods that were not real-time and/or do not include audio-visual communication.

On May 12, 2023, these services will no longer be separately covered for Commercial plans, unless the member is on a non-standard plan with specific coverage language for online digital communication (email, portal communications, messaging, etc.).

9. Telehealth allowed to fulfill many face-to-face visit requirements for clinicians to see their patients in inpatient rehabilitation facilities (CMS<sup>54</sup>) and hospice (CMS<sup>55</sup>).

10. Hospital Outpatient Services in Provider-Based Departments (PBDs) may no longer provide services at home via telehealth and bill originating site fee Q3014. When the PHE ends, hospitals and CAHs will be required to provide services to patients within their hospital departments. (CMS<sup>57</sup>)

11. Remote patient monitoring (a/k/a remote physiologic monitoring) is closely related to telehealth. Sometimes it is considered a different method of care and treatment which pairs well with

telehealth (CMS<sup>32</sup>), and other times it is considered a third technology method of telehealth (HHS<sup>47</sup>).

- a. Established patient relationship requirement – Beginning May 12, 2023, clinicians must once again have an established relationship with the patient prior to providing RPM services. (CMS<sup>62</sup>)
- b. Duration of services requirement – During the PHE, if the patient was diagnosed with, or was suspected of having, COVID-19 and all other requirements were met, clinicians were allowed to bill CPT codes 99453 and 99454 when as few as two days of data were collected. Beginning on May 12, 2023, clinicians must return to only billing for these services when at least 16 days of data have been collected (these are monthly codes and services must be performed for more than half of the month for billing).

**D. Ending on August 9, 2023.**

The requirement for [telehealth HIPAA compliance resumes on May 12, 2023](#). (HHS<sup>58,59</sup>, FR<sup>60</sup>) The OCR transition period (grace period) ends on August 9, 2023. On August 10, 2023, providers are subject to penalties for noncompliance with HIPAA rules in connection with telehealth technology and services. (HHS<sup>66</sup>)

**E. Ending on December 31, 2023.**

The following expanded PHE provisions and telehealth waivers will end on December 31, 2023 for all plans and lines of business, unless a specific line of business or variation is noted:

1. Physicians may supervise their clinical staff using virtual technologies when appropriate, instead of requiring in-person presence. (CMS<sup>16,32</sup>)

**F. Ending on December 31, 2024.**

The following expanded PHE provisions and telehealth waivers will end on December 31, 2024 for all plans and lines of business, unless a specific line of business or variation is noted:

1. The patient does not have to reside in a rural location to receive telehealth services. (CMS<sup>1,2,34</sup>)
2. The patient can receive telehealth services in their home or any setting of care. (CMS<sup>1,2,34</sup>)
3. Providers may furnish telehealth services from any location, including the provider's home. (CMS<sup>34</sup>, OHA<sup>11</sup>)
4. Audio-only telehealth services, such as phone calls, are reimbursable. Use modifier 93 for audio-only services. (CMS<sup>17,22,39,49</sup>)

Telephone evaluation and management procedure codes were temporarily changed to status A (Active) for the PHE and were expanded to be reported by physicians and a broad range of additional clinicians. (CMS<sup>17,22</sup>) Based on current information, these codes are expected to revert to bundled status on the CMS Physician Fee Schedule as of 1/1/2025. (CMS<sup>49</sup>)

- a. 99441-99443 for scheduled or provider-initiated telephone contact.
- b. 98966-98968 for telephone contact initiated by the patient, parent, or guardian.

5. Certain telehealth visits stipulated by CMS (see CMS list of telehealth-approved codes) can be delivered audio-only (such as a telephone) if someone is unable to use both audio and video, such as a smartphone or computer. (CMS<sup>32</sup>, HHS<sup>61</sup>) Keep in mind that aside from telephone calls, the telehealth requirement for HIPAA compliance resumes on May 12, 2023 and penalties for HIPAA violations resume August 10, 2023. (HHS<sup>58, 59, 66</sup>, FR<sup>60</sup>, CAA 2023<sup>34</sup>)
6. Licensed clinical social worker services, clinical psychologist services, physical therapy services, occupational therapist services, and speech language pathology services can be paid for as Medicare telehealth services. Specific procedure codes were added to the CMS telehealth procedure code list. (CMS<sup>36, 48</sup>)
  - a. Physical Therapy Evaluations 97161-97164.
  - b. Physical Therapy Procedures 97110, 97112, 97116, 97150, 97530, 97535, 97537, 97542, 97750, 97755, and 97763.
  - c. Biofeedback training, 90901.
  - d. Patient self-management, 98960, 98961, and 98962.
  - e. Occupational therapy, 97165, 97166, 97167, 97168.
  - f. Speech therapy, 92522 and 92523.
7. Virtual check-in services may continue to be used for established patients from May 12, 2023 through December 31, 2024. (CMS<sup>16</sup>) Note: Virtual check-ins (G2010, G2012) are not considered telehealth services by CMS; they are covered by Medicare separately from the telehealth rules. (CMS<sup>51</sup>, CCA 2023<sup>39</sup>)
  - a. Virtual check-ins do not have a rural location requirement.
  - b. Virtual check-ins do not have specific originating site limitation.
8. The required face-to-face encounter for home health can be conducted via telehealth when the patient is at home. (CMS<sup>56</sup>)

**G. Not changing or ending.**

The following telehealth guidelines will not change or be affected by the end of the PHE. These apply for all plans and lines of business, unless a specific line of business or variation is noted:

1. The use of telehealth services was strongly encouraged during the PHE to contain the spread of this new virus and the COVID-19 outbreak. After May 11, 2023, when the PHE is declared over, telehealth services should continue to be used as clinically appropriate under standard (non-PHE) telehealth coverage guidelines.
2. Modifiers for telehealth services:
  - a. Continue to use modifiers GQ and GO when required by current Medicare rules for traditional telehealth services:
    - i. Furnished as part of a federal telemedicine demonstration project in Alaska and Hawaii using asynchronous (store and forward) technology, use GQ modifier
    - ii. Furnished for diagnosis and treatment of an acute stroke, use GO modifier.

- b. Critical access hospital method II claims should continue to bill with modifier GT. (CMS<sup>18</sup>)
2. Continue to use place of service codes 02 and 10 to designate telehealth for Medicare and Commercial claims, and place of service 02 for Medicaid claims. No additional telehealth modifier will be needed when real-time audio + visual HIPAA-secure technology is used (unless a specific guideline exists).
3. List of procedure codes and services allowed to be performed as telehealth:
  - a. Medicare Advantage:

As part of the PHE flexibilities, Medicare expanded the list of procedure codes covered as telehealth services, retroactive to date of service March 1, 2020. (CMS<sup>16</sup>) Medicare updates the list annually. Should the expanded coverage of some of those specific procedure codes come to an end, they will no longer appear on the list of Medicare telehealth procedure codes. This list can be found at:

<https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes> .
  - b. Medicaid:
    - i. Medicaid allows all of the Medicare-approved telehealth procedure codes as well as additional codes and services specified under the CCO coverage lists and on the OHA fee schedules as eligible for modifier GT.
    - ii. For Medicaid telehealth consultations for emergency and inpatient services, refer to the current or applicable for date of service [Prioritized List of Health Services](#), Ancillary Guideline A5, Telehealth, Teleconsultations and Online/Telephonic Services.
    - iii. For members with Medicare as primary, bill according to CMS guidelines. As secondary will process based on Medicare paid amounts, telemedicine coding doesn't have to match OHP claims coding to pay secondary in MMIS per OAR 410-120-1280.
  - c. Commercial plans:

Commercial plans allow all the Medicare-approved telehealth procedure codes as well as additional codes and services covered under the plan which can safely and effectively be performed via telehealth.
4. Telehealth cost-sharing is never more than if the service was performed in person.
5. Modifier 93 was added on 1/1/2022 to indicate telehealth services provided using audio-only technology (e.g., telephone, provider portal audio-only). Modifier 93 does not need to be appended to procedure codes with "telephone" in the code description, such as 99441 – 99443.

## Codes, Terms, and Definitions

### Acronyms & Abbreviations Defined

Acronym or Abbreviation		Definition
ABA	=	Applied Behavior Analysis
AHA	=	American Hospital Association
AMA	=	American Medical Association
ASO	=	Administrative Services Only
CCI	=	Correct Coding Initiative (see "NCCI")
CDC	=	Centers for Disease Control
CKD	=	Chronic Kidney Disease
CMS	=	Centers for Medicare and Medicaid Services
CPT	=	Current Procedural Terminology
DRG	=	Diagnosis Related Group (also known as/see also MS DRG)
ED	=	Emergency Department (also known as/see also ER)
ER	=	Emergency Room (also known as/see also ED)
ESRD	=	End Stage Renal Disease
FQHC	=	Federally Qualified Health Center
HCPCS	=	Healthcare Common Procedure Coding System (acronym often pronounced as "hick picks")
HHS	=	The U.S. Department of Health and Human Services (HHS)
HIPAA	=	Health Insurance Portability and Accountability Act
ICD-10-CM	=	International Classification of Diseases, Tenth Edition, Clinical Modification
MS DRG	=	Medicare Severity Diagnosis Related Group (also known as/see also DRG)
NCCI	=	National Correct Coding Initiative (aka "CCI")
OCR	=	Office of Civil Rights (branch of HHS that enforces HIPAA)
OHA	=	Oregon Health Authority
OHP	=	Oregon Health Plan (aka Oregon Medicaid)
PHE	=	Public Health Emergency
PHEIC	=	Public Health Emergency of International Concern
RHC	=	Rural Health Clinic
RPM	=	Reimbursement Policy Manual (e.g., in context of "RPM052" policy number, etc.)

Acronym or Abbreviation		Definition
RPM	=	Remote Patient Monitoring (also known as/see also Remote Physiologic Monitoring)
RPM	=	Remote Physiologic Monitoring (also known as/see also Remote Patient Monitoring)
UB	=	Uniform Bill
WHO	=	World Health Organization

Definition of Terms

Term	Definition
Pandemic	A global outbreak of disease.
Public Health Emergency	An extraordinary event which is determined to constitute a public health risk through the spread of disease and requires a coordinated response.
Public Health Emergency of International Concern (PHEIC)	A formal declaration by the World Health Organization (WHO) of a public health emergency of international scale. (Wiki <sup>10</sup> )
Remote Patient Monitoring (RPM) Remote Physiologic Monitoring (RPM)	Remote patient/physiologic monitoring (RPM) is using technology to enable monitoring of patients outside of conventional clinical settings (e.g., monitoring the patient in the home instead of in the clinic or the hospital). The monitoring involves the collection and analysis of patient physiologic data (e.g., heart rate, blood pressure, weight, temperature, glucose level, etc.) that are used to develop and manage a treatment plan related to a chronic and/or acute health illness or condition. (Foley <sup>64</sup> ) Remote patient monitoring may be part of Home Health Agency services or may be handled directly by a physician/clinic.

Procedure codes (CPT & HCPCS):

For a list of telehealth services covered under each type of plan, see [“Telehealth And Telemedicine Services.”](#) Moda Health Reimbursement Policy Manual, RPM052.

See [here for a list of key PHE telehealth coding changes for Commercial plans](#) (effective for dates of service March 6, 2020 to May 11, 2023).

Modifier Definitions:

Modifiers CR and CS are shown below. For a list of the remainder of telehealth modifiers, please see [“Telehealth and Telemedicine Services.”](#) Moda Health Reimbursement Policy Manual, RPM052.

Modifier	Modifier Description & Definition
Modifier CR	Catastrophe/disaster related
Modifier CS	Cost-sharing waived for specified COVID-19 testing-related services that result in an order for, or administration of, a COVID-19 test and/or used for cost-sharing waived preventive services furnished via telehealth in Rural Health Clinics and Federally Qualified Health Centers during the COVID-19 public health emergency

Diagnosis codes (ICD-10):

Code	Code Description	
B97.21	SARS-associated coronavirus as the cause of diseases classified elsewhere	
B97.29	Other coronavirus as the cause of diseases classified elsewhere	For confirmed cases of COVID-19 for DOS 3/31/2020 and earlier
U07.1	COVID-19 [acute respiratory disease]	Effective for DOS 4/1/2020 and following (CDC <sup>15</sup> )
Z03.818	Encounter for observation for suspected exposure to other biological agents ruled out	
Z20.828	Contact with and (suspected) exposure to other viral communicable diseases	

Place of Service code:

Note: Under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), the effective date for nonmedical data code sets, of which the POS code set is one, is the code set in effect the date the transaction is initiated. It is not date of service. (CMS MM9726<sup>3</sup>)

Code	Short Description	Place of Service Code Long Description
02	Telehealth	The location where health services and health related services are provided or received, through telecommunication technology. (Does not apply to originating site facilities billing a facility fee.) (Effective for claims submitted 1/1/2017 – 12/31/2021, regardless of date of service.)
02	Telehealth Provided Other than in Patient's Home	The location where health services and health related services are provided or received, through telecommunication technology. Patient is not located in their home when receiving health services or health related services through telecommunication technology. (Description change effective January 1, 2022, and applicable for Medicare April 1, 2022.)
10	Telehealth Provided in Patient's Home	The location where health services and health related services are provided or received, through telecommunication technology. Patient is located in their home (which is a location other than a hospital or other facility where the patient receives care in a private residence) when receiving health services or health related services through telecommunication technology. (This code is effective January 1, 2022, and available to Medicare April 1, 2022.)

Condition code:

Condition Code	Condition Code Description
DR	Disaster related

## **Background Information**

The SARS-CoV-2 virus is a coronavirus that causes the disease COVID-19. (WHO<sup>5</sup>) The initial outbreak was identified in Wuhan, Hubei Province, China and later spread internationally. (CDC<sup>6</sup>) The World Health Organization (WHO) declared the outbreak a Public Health Emergency of International Concern on January 30, 2020. (WHO<sup>7</sup>) Then, on March 11, 2020, the WHO declared COVID-19 a pandemic. (Ducharme<sup>8</sup>) The Centers for Disease Control and Prevention (CDC) leads the U.S. response. The World Health Organization (WHO) guides the global response. (OHA<sup>9</sup>)

The Coronavirus Preparedness and Response Supplemental Appropriations Act, as signed into law by the President on March 6, 2020, includes a provision allowing the Secretary of the Department of Health and Human Services to waive certain Medicare telehealth payment requirements during the Public Health Emergency (PHE) declared by the Secretary of Health and Human Services January 31, 2020 to allow beneficiaries in all areas of the country to receive telehealth services, including at their home. (CMS<sup>1</sup>)

## **IMPORTANT STATEMENT**

The purpose of this Reimbursement Policy is to document our payment guidelines for those services covered by a member's medical benefit plan. Healthcare providers (facilities, physicians, and other professionals) are expected to exercise independent medical judgment in providing care to members. Our Reimbursement Policy is not intended to impact care decisions or medical practice.

Providers are responsible for submission of accurate claims using valid codes from HIPAA-approved code sets and for accurately, completely, and legibly documenting the services performed. Billed codes shall be fully supported in the medical record and/or office notes. Claims are to be coded appropriately according to industry standard coding guidelines (including but not limited to UB Editor, AMA, CPT, CPT Assistant, HCPCS, DRG guidelines, CMS' National Correct Coding Initiative [CCI] Policy Manual, CCI table edits and other CMS guidelines).

Benefit determinations will be based on the member's medical benefit plan. Should there be any conflicts between our Reimbursement Policy and the member's medical benefit plan, the member's medical benefit plan will prevail. Fee determinations will be based on the applicable provider fee schedule, whether out of network or participating provider's agreement, and our Reimbursement Policy.

Policies may not be implemented identically on every claim due to variations in routing requirements, dates of processing, or other constraints; we strive to minimize these variations.

\*\*\*\*\* The most current version of our reimbursement policies can be found on our provider website. If you are using a printed or saved electronic version of this policy, please verify the information by going to [https://www.modahealth.com/medical/policies\\_reimburse.shtml](https://www.modahealth.com/medical/policies_reimburse.shtml) \*\*\*\*\*

## Policy History

Date	Summary of Update
2/14/2024	Clarification/Update: Section C.3 & 5: Corrected footnote numbering Section F.4: Clarified to use modifier 93 (audio-only) for telephone call visits. References & Resources: # 49, Updated URL.
5/2/2023	Revision: Complete overhaul of policy and revised policy title resulting from President Biden's 1/30/2023 announcement that the PHE will end on May 11, 2023 and the subsequent related information released from CMS, HHS, & other relevant sources.
12/14/2022	Formatting/Update: Change to new header; Idaho is included but not checked. Header: Section field changed from "Medicine" to newly created "Telemedicine." Cross References: Hyperlink added. Policy History section: Added. Entries prior to 2022 omitted (in archive storage).
3/26/2020	Policy initially approved by the Reimbursement Administrative Policy Review Committee & initial publication.
3/6/2020	Original Effective Date (with or without formal documentation). Policy based on CMS policy & individual state legislative requirements.
