

Get care from the comfort of your home, or wherever you are

Now, you can get care at home – or wherever you like – with telehealth.

What's telehealth?

Telehealth makes healthcare convenient for you. Telehealth is the use of telecommunication to have an appointment with a healthcare provider. It includes two-way video, telephone, email, text, etc. For the duration of the COVID-19 risk period, we're expanding our coverage so that you can have telehealth appointments instead of physically going to see your providers, whenever possible.

Telehealth is a great option for many medical conditions that are not emergencies and that may require prescriptions including behavioral health and substance-use-disorder services. Registered Nurse Advice Line is an example of telehealth.

Who can use telehealth?

Moda Health members of any age can use other telehealth options to get care from in-network healthcare providers. With both, children will need an adult to assist them.

How much does telehealth cost?

Telehealth will follow standard cost-sharing for the type of visit, unless the visit is related to COVID-19. There is no cost-share for COVID-19-related visits. If you need help finding your cost-share or have questions, please contact us. Registered Nurse Advice Line is free to use.

When is telehealth available?

Registered Nurse Advice Line is available 24 hours a day, 365 days a year. Call 866-321-7580. For other telehealth options and availability, please contact your healthcare provider's office.

Enjoy using your telehealth benefit!

Questions?

Our Customer Service team is also available to answer any benefit questions you have. Call us at 888-217-2363. TTY users, dial 711. Our team is available to help you from 7 a.m. – 8 p.m. PST Monday – Friday.
