

Site of Care

Frequently Asked Questions

1. Do medications in the Site of Care program require prior authorization?

Yes, all medications included in the Site of Care program require prior authorization. For the most up-to-date list of infused medications that require prior authorization within the Site of Care program, please visit

Oregon: https://www.modahealth.com/pdfs/medical/soc_auth_list.pdf

Texas (Equal Funding only): https://www.modahealth.com/pdfs/medical/soc_auth_list.pdf

2. Will my patients have to move to home infusion or a prescriber office immediately after approval of a Site of Care medication?

Prior authorization requests for medications included in the Site of Care program for new utilizers are subject to the Site of Care program requirements. For current utilizers of these medications, Site of Care program requirements will apply upon prior authorization renewal.

To prevent a delay in care and allow for adequate transition time for Moda members to move to an alternative infusion site, all Site of Care program requirements will be waived during the first 60 days following prior authorization approval. Moda will deny services as provider responsibility for infusions administered in a hospital outpatient infusion center beyond the waiver period.

3. What if a hospital outpatient infusion center is the only appropriate setting for my patient?

Exceptions to the Site of Care program requirements are reviewed through the prior authorization process and may be granted on a case-by-case basis based on medical necessity.

4. How will my patient be notified about the Site of Care program?

Magellan Rx and Moda will work closely with members to identify and transition them to a preferred site of service. Magellan Rx coordinates communication between provider, member, and alternative sites of care to facilitate the transition.

5. How will I be notified of changes to the Site of Care program medication list?

When new medications are added to the Site of Care program, you will receive an advanced notification as per the terms of your provider contract with Moda. To view the most up-to-date list of medications included in the program, please visit one of the following sites, as pertains to the member:

Oregon: https://www.modahealth.com/pdfs/medical/soc_auth_list.pdf

Texas (Equal Funding only): https://www.modahealth.com/pdfs/medical/soc_auth_list.pdf

6. How do I submit a prior authorization request through Magellan Rx?

If you are already a registered provider on MagellanRx's portal, please go to ih.magellanrx.com/ to begin requesting your prior authorization. However, if you are new to MagellanRx, please go to ih.magellanrx.com/ and select "New Access Request-Provider" on the right side of the home page

7. Are there preferred providers for this program?

Yes. Moda Health and Magellan Rx have worked closely with various providers to deliver the best care and value for our members. Depending on geographical location and group-specific benefits, the preferred provider may vary. If delivering care outside of a professional office, preferred providers include:

- Emerging Health
- Option Care (Texas Equal Funding only)
- Oregon Health and Science University (OHSU) Home Infusion Services (OHSU employees only)

Please contact Magellan Rx at 1-800-424-1762 with questions regarding the preferred provider for your patient.
