

## Travel Network

Enjoy carefree travels and in-network benefits with the ODS Travel Network. ODS makes your experience easier and more carefree by giving you better coverage.

Now you have one more reason to travel the country from coast to coast. If you need medical care while you are traveling on vacation or business, the ODS Travel Network will make sure you enjoy in-network benefits.

### THOUSANDS OF PROVIDERS

The ODS Travel Network is served by the PHCS Healthy Directions network, which boasts thousands of primary care physicians, specialists, hospitals and other medical facilities. And it's easy to find them. Quickly search for providers or facilities using the Find Care tool at [www.odscompanies.com](http://www.odscompanies.com). Once you click on Find Care, make sure to search as a member. Only members can see Travel Network providers.

### HOW IT WORKS

The way it works is easy. When you or a dependent need medical care while you are traveling outside of your primary service area ODS will review your claim to see if the provider is part of the PHCS Healthy Directions network. If so, ODS will pay the claim at the in-network benefit level. Best of all, you can seek care whether or not it's an emergency.

*Use your primary providers at home*

*The ODS Travel Network is not an alternative primary network, so you should continue to seek care in your primary network unless you are traveling. Preauthorization is still required for planned inpatient admissions and select outpatient procedures. ODS Customer Service and Healthcare Services can help you find in-network providers.*

### BETTER COVERAGE FOR OUT-OF-AREA DEPENDENTS

If you have a dependent who lives out of the area — like a student — the ODS Travel Network can save you money. Normally, you could be subject to balance billing, the difference between the ODS maximum plan allowance and the actual fee charged by a provider, when your dependent seeks out-of-network care.

But with access to the ODS Travel Network, if an out-of-area dependent seeks care from a PHCS Healthy Directions provider, ODS will pay at the in-network benefit level. That means better coverage and more savings for you.

Search for ODS Travel Network providers or facilities by visiting [www.odscompanies.com](http://www.odscompanies.com) and selecting Find Care.
