## Better plans for the real you

We love our health plans – and we hope you will, too. They are meant to help you find moments every day to be your healthy best.

### Medical plan options

Depending on your location, choose either a Synergy or Summit coordinated care model (CCM) plan. Each plan connects you with expert care, close to home – at a low cost. Your plan also includes access to the Synergy or Summit network – a group of quality doctors, clinics, pharmacies and hospitals located near you.

### Lots of value you'll love

Synergy and Summit CCM plans simply give you bigger benefits at an even better savings. Here are a few highlights:

- \$5 in-network specialist visits
- Doctors who connect with each other to coordinate your care
- Medical \$250 deductible per person
- Pharmacy benefits, including \$0 copay for value medications and vaccines
- Cost-effective mail-order pharmacy options

Our medical plans also cover most routine, in-network preventive care at no cost to you. These services may include:

- Periodic health exams
- Well-baby care
- Women's annual exams
- Many immunizations and lab services
- Preventive cancer and other health screenings

### Medical Homes make care personal

Once your Synergy/Summit (CCM) plan is active, you'll need to pick a Moda Medical Home. Your Medical Home is the place you go for care and where you see your preferred doctors or primary care physician. They will work together with you and the rest of your team on the best treatments for you. This team-based approach offers:

- Faster, easier ways to find care
- Support in meeting your health goals
- Personalized care centered on you
- Lower out-of-pocket costs with your Moda Medical Home

The CCM plan is the best option for you – if you are looking for partners to help you on your healthcare journey. This is also the ideal option if you are managing an existing condition because of its laser focus on wellness, prevention and improving your quality of life.

### Selecting your Moda medical home

Both Synergy and Summit networks have lots of great doctors who are part of a Moda medical home. Each of your covered family members can pick the same provider, or a different one – it's up to each of you. Please note, a naturopathic provider is not considered a Moda medical home unless they are credentialed as a primary care provider.

After you receive your Moda Health ID card, log in to myModa and choose the "Medical Home" tab to make your selection. Then follow the steps in your Member Handbook to let us know which medical home you have chosen.

## Networks protect you near and far

Health happens, whether you're at home or on the road. We want to make sure you stay covered, no matter where you go. So, we've made it easy for you to find in-network coverage in your hometown and across the country.

### Is a provider in-network?

Find out by visiting [modahealth.com](http://modahealth.com) and using Find Care. Just search as a guest and choose the Synergy or Summit network. Then locate medical home providers near you. Be sure to check back often, since we add new providers all the time.

### Travel network – First Health Network

When members hit the road, care is never far. While travelling outside the network service area, members can receive emergency and urgent care through the First Health Network\*, which is paid at the in-network amount. Other covered care received while traveling is paid at the out-of-network amount. Traveling for the purpose of seeking care does not qualify for the travel network benefit.

Outside the United States, members may access any provider for in-network emergency or urgent care. This care is subject to balance billing. All other care received outside the United States is not covered.

## Expect quality pharmacy benefits

Quality prescription coverage is right at the heart of a great plan. We're here to support your pharmacy needs, every step of the way.

### Access medications your way

As the administrator of the Oregon Prescription Drug Program (OPDP), we do our best to provide quality coverage that reflects the most current industry standards.

Through the program, you can access medications based on tier: value, generic and brand. Each tier has a copay or coinsurance amount set by the plan.

### Value medications

Value medications include commonly prescribed products used to treat chronic medical conditions and preserve health. They are identified – based on the latest clinical information and medical literature – as being safe, effective, cost-preferred treatment options.

The value tier includes products for the following health issues:

- Asthma
- Heart, cholesterol, high blood pressure
- Diabetes
- Osteoporosis
- Depression

For a list of medications included under the value tier, visit [modahealth.com/pebb](http://modahealth.com/pebb).

### Pharmacy plan savings

There are a few ways to save on prescription medication costs. Use your 90-day mail-order benefit through Postal Prescription Services (PPS). You can receive significant savings by using the mail-order benefit.

You can also fill a 90-day prescription at select Choice 90 retail pharmacies. You may have more savings options through our preferred pharmacy partners.

### Find an in-network pharmacy

Just visit [modahealth.com/pebb](http://modahealth.com/pebb) and use Find Care to locate a pharmacy near you.

### Get vaccinated

Moda Health pharmacy benefits include free immunizations (also called vaccinations) when you see an in-network provider. Take advantage of this feature! Vaccinations are an important way to protect you, your family and the community from infectious diseases.

### Other handy pharmacy features

Along with great benefits, you'll also get tools that make finding medications a little easier. The "prescription price check" lets you look up estimated medication prices online.

Just log in to myModa and enter a medication name to find cost estimates by medication tier. You can compare pricing estimates from various in-network pharmacies and see generic and/or lower-cost options to discuss with your doctor.

# Glossary

We realize that the words used in health plan brochures can be confusing, so we've made you a cheat sheet of sorts.

## Healthcare lingo explained

### **Additional Cost Tier**

Select procedures, including spine procedures, knee and hip replacement, arthroscopies (knee and shoulder), bariatric surgery, spinal injections for pain, upper GI endoscopy, bunionectomy and sinus surgery.

The ACT is designed to encourage exploration of less invasive treatment alternatives. It is important for members to understand and consider all factors – including additional costs – when discussing treatment options with providers.

### **Alternative care**

Eligible chiropractic, acupuncture and naturopathic services.

### **Balance billing**

Charges for out-of-network care beyond what the health plan allows. Out-of-network providers may bill members the difference between the maximum plan allowance and their billed charges.

### **Brand tier medications**

Brand medications reviewed by Moda Health and found to have no significant therapeutic advantage over their preferred tier alternatives. These products generally have safe and effective options available under the value, select and/or preferred medication tiers.

### **Chronic care services**

Services provided during office visits that help members manage certain conditions, including asthma, heart conditions, cholesterol, high blood pressure and diabetes.

### **Coinsurance**

The percentage members pay for a covered healthcare service after they meet their deductible.

### **Copay**

The fixed amount members pay for a specific covered healthcare service, product or treatment, usually at the time of receiving it. For example, they might pay \$25 for a doctor visit.

### **Deductible**

The amount members pay in a calendar year for care that requires a deductible before the health plan starts paying. Fixed-dollar copays and prescription medications may not apply toward the deductible. Disallowed charges do not apply toward the deductible.

### **Evidence-based practices**

Healthcare options or decisions that research shows work best, are most cost-effective and consider the patient's needs and experience.

### **Filed-fee savings**

Savings due to a Premier or PPO network provider's accepted or contracted fee with Delta Dental.

### **Generic tier medications**

Generic medications that have been determined by physicians and pharmacists to be therapeutically equivalent to the brand alternatives and are often the most cost-effective option. Generic medications must contain the same active ingredients as their brand name counterparts and be identical in strength, dosage form and route of administration.

### **Maximum cost share**

This is different from the out-of-pocket maximum. It is the annual limited amount members pay for covered in-network services that qualify as essential health benefits under the Affordable Care Act (ACA). This includes pharmacy and medical deductibles and all eligible copayments and coinsurance (including amounts that may not have counted towards the out-of-pocket maximum). Once the cost share maximum is reached, the plan pays 100% for covered essential health benefits.

### **Out-of-pocket costs**

What members pay in a calendar year for care after their health plan pays its portion. These expenses may include deductibles, copays and coinsurance for covered services.

### **Out-of-pocket maximum**

The most members pay in a calendar year for some covered care and services before benefits are paid in full up to the allowable amount or up to any visit or dollar limit. Once members meet their out-of-pocket maximum, the plan covers eligible expenses at 100 percent, except for services that are not applicable to the out-of-pocket maximum or do not qualify as essential health benefits.

The out-of-pocket maximum includes deductibles, coinsurance and copays. It does not include disallowed charges or balance billing from out-of-network providers.

**Preferred provider**

A person or place contracted with a health network to provide care. By choosing a preferred provider, members' out-of-pocket expenses will be less than if they choose a provider outside the network.

**Primary care provider (PCP)**

The family doctor who treats members or coordinates their care to keep them healthy. Examples of a PCP include an M.D. (Doctor of Medicine), a D.O. (Doctor of Osteopathic Medicine), a nurse practitioner or a physician assistant. These providers may practice primary care in the specialties of internal medicine, family medicine, general practice, geriatric medicine, pediatrics, obstetrics/gynecology and women's health.

**Professional services**

Primary care and specialist office visit services performed by a licensed healthcare provider. Members seeing a participating Moda Health medical home provider will have a better benefit for chronic and primary care office visits.

**Value tier medications**

Commonly prescribed medications used to treat chronic medical conditions and preserve health.
