

Manual: Reimbursement Policy

Policy Title: Telehealth and Telemedicine Expanded Services for

COVID-19

Section: Medicine

Subsection: None

Date of Origin: 3/6/2020 Policy Number: RPM073

Last Updated: 12/21/2020 Last Reviewed: 12/21/2020

General Statement

Effective immediately (March 2020), Moda Health is expanding our policies around telehealth services for our Medicare Advantage, Medicaid and Commercial membership, making it even easier and safer for patients to connect with their health care provider during the COVID-19 outbreak.

Scope

This policy temporarily supplements RPM052, "Telehealth And Telemedicine Services" due to the COVID-19 public health emergency (PHE). The policy is meant to outline the expanded coverages and changes, rather than going into the extent and detail contained in RPM052.

This policy is effective for dates of service March 6, 2020 (CMS^{1, 2}) and will be updated when the PHE criteria noted below change:

- Oregon Commercial plans until the voluntary agreement with the State of Oregon expires.
- Oregon Medicaid plans until the voluntary agreement with the State of Oregon expires.
- Alaska Commercial plans the expanded coverage from the state of Alaska directives has been made permanent. (See AS 21.42.422 & SCS HB 29. The Alaska section of RPM052, "Telehealth And Telemedicine Services" is also being updated.)
- Medicare Advantage plans until directed by CMS that the temporary expanded coverage has ended.

This policy applies to Commercial medical plans, Medicare Advantage plans, and Oregon Medicaid/EOCCO plans.

This policy does not apply to:

- Dental-only plans.
- Vision-only plans.

Reimbursement Guidelines

A. All Lines of Business, New Patient versus Established Patient Determinations

Telemedicine services count the same as an in-office visit for the purposes of determining if the patient is a new patient or an established patient when they are receiving future visits and services. For further detail, see RPM052, Section A.

B. Commercial Plans

- 1. Telehealth services have been expanded to include communication methods that are not real-time and/or do not include audio-visual communication. Many of these are not normally a covered benefit on our standard plans. This includes:
 - a. Telephone calls.
 - b. Email.
 - c. Provider portal communication.
 - d. Instant messaging.
- 2. The federal government has waived HIPAA privacy requirements, so services such as Google Hangouts, FaceTime, Skype, and similar applications and services may be used during this crisis.
- 3. Expanded telehealth services are available for all diagnoses, not just for COVID-19 or suspected COVID-19.
- 4. Providers may perform telehealth services from their own home, if able and appropriate. (OHA11)
- 5. Hospital Outpatient Services Accompanying Professional Services Furnished Via Telehealth
 - a. The hospital may bill for the originating site facility fee associated with the telehealth service when both of the following are true:
 - i. The patient is at home or at a temporary expansion site receiving services via telehealth from a physician or nonphysician practitioner who typically furnishes professional services in the hospital outpatient department, including a behavioral health intensive outpatient services or partial hospitalization program.
 - ii. The patient is registered as a patient of the hospital for purposes of receiving those outpatient telehealth services.
 - b. The originating site fee is billed with Q3014 under the revenue code of the hospital outpatient department under which the outpatient services would normally have been provided. (CMS²¹)
- 6. The usual telehealth cost-sharing requirements apply.
 - a. Telehealth cost-sharing is never more than if the service was performed in person.
 - b. Exception: No cost share for the visit when COVID-19 testing is performed or ordered.
- 7. The use of telehealth services is strongly encouraged to contain the spread of this new virus and the COVID-19 outbreak.

C. Medicare Advantage Plans

- 8. The patient does not have to reside in a rural location to receive telehealth services. Effective March 6, 2020. (CMS^{1, 2})
- 9. The patient can receive telehealth services in their home or any setting of care. Effective March 6, 2020. (CMS^{1, 2})
- 10. Telephones that have audio and video capabilities may be used for telehealth.
- 11. Everyday communication technologies, such as FaceTime and Skype may be used during this PHE crisis.
 - HIPAA violation penalties against providers using everyday communication technologies will be waived by the HHS Office for Civil Rights.
- 12. The list of telehealth services covered under Medicare has been expanded as of March 30, 2020. Medicare has added 85 new procedure codes that will be covered for telehealth services, retroactive to date of service March 1, 2020. (CMS¹⁶)
 - a. Licensed clinical social worker services, clinical psychologist services, physical therapy services, occupational therapist services, and speech language pathology services can be paid for as Medicare telehealth services.
 - b. The updated complete list of regular telehealth codes and the temporary additions for the PHE for the COVID-19 Pandemic has been posted at: https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes.
 - c. For all telehealth services performed on 3/1/2020 through the end of the PHE, CMS instructs to not use POS 02, but instead to:
 - i. Bill with the Place of Service (POS) equal to what it would have been in the absence of a PHE.
 - ii. Append modifier 95 (which CMS does not otherwise accept).
 - iii. This will indicate that the service rendered was actually performed via telehealth during the PHE. (CMS¹⁸)
 - d. Modifiers for Medicare telehealth services:
 - i. Use modifier 95 as instructed above during the PHE.
 - ii. CMS is not requiring the "CR" modifier on telehealth services.
 - iii. Continue to use modifiers GQ and G0 when required by current Medicare rules for traditional telehealth services:
 - 1) Furnished as part of a federal telemedicine demonstration project in Alaska and Hawaii using asynchronous (store and forward) technology, use GQ modifier
 - 2) Furnished for diagnosis and treatment of an acute stroke, use G0 modifier.

- iv. Critical access hospital method II claims should continue to bill with modifier GT. (CMS¹⁸)
- v. Cost-sharing does not apply for COVID-19 testing-related services (both telehealth and non-telehealth).
 - 1) Use modifier CS for all medical visits (telehealth or non-telehealth) related to COVID-19 testing for dates of service between March 18, 2020 and the end of the Public Health Emergency (PHE).
 - 2) For detailed information about what qualifies a visit to be related to COVID-19 testing, see 2020-04-07-MLNC-SE. (CMS¹⁹)
- 13. <u>E-visits</u> are not considered telehealth by CMS; they are covered by Medicare separately from the telehealth rules.
 - a. E-visit procedure code descriptions state "established patients" but during the COVID-19 PHE these codes may be used for new patient visits also. (CMS¹⁷)
 - b. E-visits do not have rural location requirements.
 - c. Licensed clinical social workers, clinical psychologists, physical therapists, occupational therapists, and speech language pathologists can provide e-visits and report them using HCPCS codes G2061-G2063.
 - d. A broad range of clinicians (CMS¹⁷, CMS²²), including physicians can report telephone evaluation and management services using codes that have temporarily been changed to a status A (Active): (CMS¹⁷)
 - i. 99441-99443 for scheduled or provider-initiated telephone contact.
 - ii. 98966-98968 for telephone contact initiated by the patient, parent, or guardian.
- 14. <u>Virtual check-ins</u> (G2010, G2012) are not considered telehealth services by CMS; they are covered by Medicare separately from the telehealth rules.
 - a. Virtual check-in services can be provided to new patients in addition to established patients. (CMS¹6)
 - b. Virtual check-ins do not have a rural location requirement.
 - c. Virtual check-ins do not have specific originating site limitation.
- 15. CMS is allowing telehealth to fulfill many face-to-face visit requirements for clinicians to see their patients in inpatient rehabilitation facilities, hospice and home health. (CMS¹⁶)
- 16. Any health care practitioner working for a Rural Health Clinic (RHC) or a Federally Qualified Health Center (FQHC) can furnish distant site telehealth services within the provider's scope of practice. (CMS²⁰)
 - a. Telehealth services can be furnished from any location, including the provider's home, during the time that they are working for the RHC or FQHC.

- b. RHCs and FQHCs must use HCPCS code G2025 (*Distant Site Telehealth Services RHC/FQHC*) to identify services that were furnished via telehealth during the PHE. This is a new RHC/FQHC specific G code for distant site telehealth services.
- 17. The usual telehealth cost-sharing requirements apply.
 - a. Telehealth cost-sharing is never more than if the service was performed in person.
 - b. Exception: No cost share for the visit when COVID-19 testing is performed or ordered.
- 18. Hospital Outpatient Services Accompanying Professional Services Furnished Via Telehealth
 - a. The hospital may bill for the originating site facility fee associated with the telehealth service when both of the following are true:
 - i. The patient is at home or at a temporary expansion site receiving telehealth services from a physician or nonphysician practitioner who typically furnishes professional services in the hospital outpatient department.
 - ii. The patient is registered as an outpatient of the hospital for purposes of receiving those outpatient telehealth services.
 - b. The originating site fee is billed with Q3014 under the revenue code of the hospital outpatient department under which the outpatient services would normally have been provided. (CMS²¹)
- 19. These relaxed telehealth requirements apply to telehealth services for all diagnoses, not just for COVID-19 or suspected COVID-19.
- 20. Other related expanded permissions:
 - a. Remote patient monitoring is not considered telehealth by CMS; it is covered by Medicare separately from the telehealth rules. CMS is making it clear that clinicians can provide remote patient monitoring services to patients with acute and chronic conditions and for patients with only one disease. For example, remote patient monitoring can be used to monitor a patient's oxygen saturation levels using pulse oximetry. (CMS¹⁶)
 - b. CMS is allowing physicians to supervise their clinical staff using virtual technologies when appropriate, instead of requiring in-person presence. (CMS¹⁶)

D. Medicaid Plans

- 21. Telehealth visits can be provided by telephone when appropriate during the COVID-19 crisis. The requirement for synchronous visits with both audio and video capability is temporarily waived.
- 22. Everyday communication technologies, such as FaceTime and Skype may be used for patient contact during this PHE crisis.
 - a. Certain requirements for encryption and HIPAA violation penalties will not be enforced by federal authorities during this crisis.
 - b. HIPAA compliant platforms are of course preferred when available.

- 23. The patient may be at home or in a health care setting.
- 24. CPT codes 99441-99443 & 98966-98968 (Telephone assessment and management service) are temporarily open for use by Behavioral Health providers.
- 25. Telehealth visits are covered for inpatient and outpatient services for new or established patients.
- 26. Telehealth consultations are covered for emergency and inpatient services.
 - a. Limited information provided by one clinician to another that does not contribute to collaboration (e.g., interpretation of an electroencephalogram, report on an x-ray or scan, or reporting the results of a diagnostic test) is not considered a consultation. (OHA³)
 - b. Consultation requirements of request from and report back to another provider must be documented to report a telehealth consultation service.
- 27. Providers may perform telehealth services from their own home, if able and appropriate. (OHA¹¹)
- 28. Reimbursement requirements:
 - a. Bill covered telemedicine procedure codes with place of service 02. The use of telehealth POS 02 certifies that the service meets the telehealth requirements.
 - b. Modifier GT is required for some behavioral health services (Please see BH Fee Schedule).
 - c. The GQ modifier is still required when applicable. GQ modifier means; via Asynchronous Telecommunication systems.
 - d. Modifier 95 is allowed for telemedicine services
 - e. Bill with the transmission site code Q3014; (where the patient is located).
 - f. The evaluating practitioner at the distant site may bill for the evaluation, but not for the transmission site code.
 - g. For members with Medicare as primary, bill according to CMS guidelines. As secondary will process based on Medicare paid amounts, telemedicine coding doesn't have to match OHP claims coding to pay secondary in MMIS per OAR 410-120-1280.
 - h. Important information related to COVID-19 claims tracking:

OHA would like to track claims related to COVID-19. Please use the following modifiers for all COVID-19 related claims (telehealth or non-telehealth services):

- i. Modifier CR: Professional claims.
- ii. Condition code DR: Institutional claims.
- 29. The usual telehealth cost-sharing requirements apply.
 - a. Telehealth cost-sharing is never more than if the service was performed in person.
 - b. Exception: No cost share for the visit when COVID-19 testing is performed or ordered.

30. These relaxed telehealth requirements apply to telehealth services for all diagnoses, not just for COVID-19 or suspected COVID-19.

Codes, Terms, and Definitions

Acronyms Defined

Acronym		Definition		
ABA	=	Applied Behavior Analysis		
AHA	=	American Hospital Association		
AMA	=	American Medical Association

For Commercial plans, here is the list of procedure codes:

(codes & key changes related to the PHE are in red font)

Type of Service	What is the Service?	HCPCS/CPT Code	Coding & Helpful Information
Commercial	A visit with a provider that uses	Common	Use POS 02.
Telehealth Visits	telecommunication systems between a provider and a patient.	telehealth services include: • 99201 – 99215 (Office or other outpatient visits)	Modifier 95 is optional.
		See also separate listings for: Consultation services, pages 2 & 3. Telehealth visit at hospital or facility, page 3.	

Type of Service	What is the Service?	HCPCS/CPT Code	Coding & Helpful Information
Specific Type of Visits, done by Telehealth	A visit with a provider for a specific purpose (see each code description) with the use of telecommunication systems between a provider and a patient.	9604099473G0372G9156	Use POS 02. Modifier 95 is optional.
Virtual Check-in	A brief (5-10 minutes) check-in with your practitioner via telephone or other telecommunications device to decide whether an office visit or other service is needed. A remote evaluation of recorded video and/or pictures/images submitted by an established patient. This is NOT an advice nurse call, this is communication with the provider themselves.	 G2012 G2010 G0071 (RHC/FQHC equivalent of G2012 or G2010) 	Use POS 02. (Audio-visual requirement is waived for the PHE.) Modifier 95 is optional. Expanded coverage during PHE for most/standard Commercial plans. Moda accepts Medicare HCPCS codes for Commercial plans when they are the most accurate and detailed code for the service (as in this case).
E-visits	A communication between a patient and their provider through an online patient portal.	 99421, 99422, 99423 98970, 98971, 98972 (preferred codes) G2061, G2062, G2063 (acceptable codes) 	Use POS 02. (Audio-visual requirement is waived for the PHE.) Modifier 95 is optional. Expanded coverage during PHE for most/standard Commercial plans. Code descriptions require an established patient relationship. For new patients, use 99201 – 99205.

Type of Service	What is the Service?	HCPCS/CPT Code	Coding & Helpful Information
Telephone E/M unrelated to face-to-face E/M (established patient)	Telephone communication between a patient and their provider. This is NOT an advice nurse call, this is communication with the	98966 – 9896899441 – 99443	Use POS 02. (Audio-visual requirement is waived for the PHE.) Modifier 95 is optional.
	provider themselves.		Expanded coverage during PHE for most/standard Commercial plans.
			Code descriptions require an established patient relationship.
			Code description requires call not be related to another E/M in past 7 days or lead to E/M next 24 hours or soonest available.
Interprofessional consult/referral	Professional to professional communication about a patient for the purpose of making a referral or obtaining a consult on the patient's condition and care. The patient is not present for the communication.	 99446 – 99449 99451 99452 	Do not use POS 02; code description is specific. No need to use modifier 95. Consultation requirements of request from and report back to another provider must be documented to use 99446 – 99449, 99451.
Telehealth Office Consultation	A consultation at the request of another provider that uses telecommunication systems between a provider and a patient, with a report back to	• 99241 – 99245	Use POS 02. Modifier 95 is optional. Moda Health Commercial plans accept consultation
	the requesting provider.		Consultation requirements of request from and report back to another provider must be documented to use a consultation code.

Type of Service	What is the Service?	HCPCS/CPT Code	Coding & Helpful Information
Telehealth visit	A visit that uses	• 99217 – 99220	Use POS 02.
at hospital, SNF,	telecommunication systems	• 99221 - 99223	Modifier 95 is optional.
or other facility	between a provider and a	• 99224 – 99226	·
	patient in a hospital, SNF, or	• 99231 – 99233	Prolonged services require
	other facility environment.	• 99234 – 99236	clear time and content
		• 99238 – 99239	documentation.
		• 99281 – 99285	
		• 99291 - 99292	
		• 99304 - 99306	
		• 99307 – 99310	
		• 99315 – 99316	
		• 99356, 99357	
		• 99468 – 99469	
		• 99471 – 99472	
		• 99475 – 99480	
Telehealth	A consultation at the request of	• 99251 – 99255	Use POS 02.
hospital consultation	another provider that uses telecommunication systems	 G0406 – G0408 G0425 – G0427 	Modifier 95 is optional.
	between a provider and a	• G0508 – G0509	Moda Health Commercial
	patient at a facility (inpatient,		plans accept consultation
	emergency department, etc.),		procedure codes.
	with a report back to the		Consultation requirements of
	requesting provider.		request from and report back
			to another provider must be
			documented to use a
			consultation code.
Telehealth visit,	A visit that uses	• 99327 – 99337	Use POS 02.
Home	telecommunication systems	• 99341 - 99350	Modifier 95 is optional.
	between a provider and a		modifier 55 is optional.
	patient in a hospital or facility		
	environment.		
Care Planning &	A care planning or care	• 99366	Use POS 02.
Care	management service	• 99495, 99496	Modifier 95 is optional.
Management Services	performed with the use of	• 99497, 99498	
Sel vices	telecommunication systems between a provider and a	• G0506	
	patient.		
	patient.		

Type of Service	What is the Service?	HCPCS/CPT Code	Coding & Helpful Information
Preventive E/M	A preventive visit with a	• 99381 – 99397	Use POS 02.
	provider with the use of telecommunication systems	G0438, G0439G0513, G0514	Modifier 95 is optional.
	between a provider and a patient.		Expanded coverage during PHE for most/standard Commercial plans.
			To the extent that preventive services can and are performed during the PHE, if able to be effectively performed by telecommunications technology, they are covered and allowed as telehealth.
Specific	One of a variety of screening or	• 96127	Use POS 02.
screening or	preventive services with the	• 96160, 96161	Modifier 95 is optional.
preventive	use of telecommunication	• 99406 – 99407	·
service, mandated or	systems between a provider and a patient.	• 99408 – 99409	
recommended	and a patient.	0488TG0296	
		• G0396, G0397	
		• G0442, G0443,	
		G0444, G0445,	
		G0446, G0447	
Health behavior	Health behavior assessment or	• 96156	Use POS 02.
assessment or	intervention service with the	• 96158 – 96159	Modifier 95 is optional.
intervention	use of telecommunication	• 96164 - 96171	·
	systems between a provider and a patient.		
Behavioral	Mental Health or Chemical	• H0035	Use POS 02.
Health partial	Dependency partial	- 110033	
hospitalization	hospitalization service(s) with		Modifier 95 is optional.
	the use of telecommunication		
	systems between a provider or		
	provider team and a patient.		
Behavioral	Mental Health or Chemical	• H0015	Use POS 02.
Health intensive	Dependency intensive	• S9480	Modifier 95 is optional.
outpatient	outpatient service(s) with the use of telecommunication		
	systems between a provider or		
	provider team and a patient.		

Type of Service	What is the Service?	HCPCS/CPT Code	Coding & Helpful Information
Behavioral	Mental Health or Chemical	• T1016	Use POS 02.
Health case management	Dependency case management service(s) with the use of telecommunication systems between a provider or provider team and a patient.		Modifier 95 is optional.
Radiation Treatment Management	Radiation Treatment Management with the use of telecommunication systems between a provider and a patient.	• 77427	Use POS 02. Modifier 95 is optional.
Mental Health or Chemical Dependency service	A mental health or chemical dependency service that uses telecommunication systems between a provider and a patient.	 90791, 90792 90832 - 90838 90785 90839, 90840 90845 90846 - 90853 90863 90887 99354, 99355 G2086 - G2088 G0459 H0001, H0002, H0004, H0005, H0014, H0031, H0031, H0039, H0050, H2000, H2001, H2010, H2011, H2012, H2011, H2012, H2014, H2015, H2017, H2019, H2021, H2025, H2028, 	Use POS 02. Modifier 95 is optional. Prolonged services require clear time and content documentation.
Prenatal Care Services Nutrition Therapy	A prenatal care service that uses telecommunication systems between a provider and a patient. A medical nutrition therapy service that uses telecommunication systems between a provider and a patient.	H2033, H2035 H1000, H1001, H1002, H1003 97802 - 97804 G0270	Use POS 02. Modifier 95 is optional. Use POS 02. Modifier 95 is optional.

Type of Service	What is the Service?	HCPCS/CPT Code	Coding & Helpful Information
Disease management	A disease management service that uses telecommunication systems between a provider and a patient.	 98960 – 98962 G0108 – G0109 G0245 – G0246 S0320 	Use POS 02. Modifier 95 is optional.
Neuro/Cognitive Services	A Neuro/Cognitive exam or testing with the use of telecommunication systems between a provider and a patient.	 96116 96125 96130 – 96139 	Use POS 02. Modifier 95 is optional.
Speech Therapy	A speech therapy service that uses telecommunication systems between a provider and a patient.	 92507 – 92508 92521 – 92524 96105 S9152 	Use POS 02. Modifier 95 is optional.
Physical Medicine and Rehabilitation (PT, OT, etc.)	A physical medicine & rehabilitation service that uses telecommunication systems between a provider and a patient.	 97110, 97112, 97116 97161 – 97168 97535, 97750, 97755, 97760, 97761 	Use POS 02. Modifier 95 is optional.
Applied Behavior Analysis (ABA) services	An Applied Behavior Analysis (ABA) service that uses telecommunication systems between a provider and a patient.	• 97151-97158	Use POS 02. Modifier 95 is optional. Expanded coverage during PHE for most/standard Commercial plans.
Dialysis Service End Stage Renal Disease (ESRD) Service Chronic Kidney Disease (CKD) Service	A Dialysis, ESRD, or CKD service with the use of telecommunication systems between a provider and a patient.	 90935, 90937 90945, 90947 90951 – 90962 90963 – 90966 90967 – 90970 90989, 90993 G0420, G0421 G0492 	Use POS 02. Modifier 95 is optional.
Other miscellaneous services	Services performed with the use of telecommunication systems between a provider and a patient.	 95970, 95971, 95972, 95983, 95984 G0337 H2000 S0257, S0260 T1001 T1024 	Use POS 02. Modifier 95 is optional.

Type of Service	What is the Service?	HCPCS/CPT Code	Coding & Helpful Information
Cardiac or Pulmonary Rehab	Cardiac or Pulmonary rehabilitation performed with the use of telecommunication systems between a provider and a patient.	93797, 93798G0422, G0423, G0424	Use POS 02. Modifier 95 is optional. CMS added expanded coverage during PHE, and this was added to Commercial also.
Remote patient monitoring	These remote patient monitoring services are not considered telehealth services. In general, these services are covered (subject to basic medical necessity criteria) under the member's regular medical benefits.	 92227 – 92228 93228 – 93229 93268 – 93272 99091 99453 – 99454 99457 - 99458 	Do not use POS 02. POS based on patient location. Use of modifier 95 not appropriate beginning 1/1/2020.

Modifier Definitions:

Modifier CS is shown below. For a list of the remainder of telehealth modifiers, please see "Telehealth and Telemedicine Services." Moda Health Reimbursement Policy Manual, RPM052.

Modifier	Modifier Description
Modifier CR	Catastrophe/disaster related
Modifier CS	Covid-19 testing related service

Diagnosis codes (ICD-10):

Code	Code Description		
B97.21	SARS-associated coronavirus as the cause of diseases classified elsewhere		
B97.29	Other coronavirus as the cause of diseases classified elsewhere	For confirmed cases of COVID-19 for DOS 3/31/2020 and earlier	
U07.1	COVID-19 [acute respiratory disease]	Effective for DOS 4/1/2020 and following (CDC ¹⁵)	
Z03.818	Encounter for observation for suspected exposure to other biological agents ruled out		
Z20.828	Contact with and (suspected) exposure to other viral communicable diseases		

Place of Service code:

Code	Short Description	Place of Service Code Long Description
02	Telehealth	The location where health services and health related services are provided or received, through telecommunication technology.
		(Does not apply to originating site facilities billing a facility fee.)

Condition code:

Condition	Condition Code Description	
Code		
DR	Disaster related

Background Information

The SARS-CoV-2 virus is a coronavirus that causes the disease COVID-19. (WHO⁵) The initial outbreak was identified in Wuhan, Hubei Province, China and later spread internationally. (CDC⁶) The World Health Organization (WHO) declared the outbreak a Public Health Emergency of International Concern on January 30, 2020. (WHO⁷) Then on March 11, 2020 the WHO declared COVID-19 a pandemic. (Ducharme⁸) The Centers for Disease Control and Prevention (CDC) leads the U.S. response. The World Health Organization (WHO) guides the global response. (OHA⁹)

The Coronavirus Preparedness and Response Supplemental Appropriations Act, as signed into law by the President on March 6, 2020, includes a provision allowing the Secretary of the Department of Health and Human Services to waive certain Medicare telehealth payment requirements during the Public Health Emergency (PHE) declared by the Secretary of Health and Human Services January 31, 2020 to allow beneficiaries in all areas of the country to receive telehealth services, including at their home. (CMS¹)

IMPORTANT STATEMENT

The purpose of this Reimbursement Policy is to document Moda Health's payment guidelines for those services covered by a member's medical benefit plan. Healthcare providers (facilities, physicians and other professionals) are expected to exercise independent medical judgment in providing care to members. Moda Health Reimbursement Policy is not intended to impact care decisions or medical practice.

Providers are responsible for accurately, completely, and legibly documenting the services performed. Billed codes shall be fully supported in the medical record and/or office notes. Providers are expected to submit claims for services rendered using valid codes from HIPAA-approved code sets. Claims are to be coded appropriately according to industry standard coding guidelines (including but not limited to UB Editor, AMA, CPT, CPT Assistant, HCPCS, DRG guidelines, CMS' National Correct Coding Initiative [CCI] Policy Manual, CCI table edits and other CMS guidelines).

Benefit determinations will be based on the member's medical benefit plan. Should there be any conflicts between the Moda Health Reimbursement Policy and the member's medical benefit plan, the member's medical benefit plan will prevail. Fee determinations will be based on the applicable provider fee schedule, whether out of network or participating provider's agreement, and Moda Health Reimbursement Policy.

Policies may not be implemented identically on every claim due to variations in routing requirements, dates of processing, or other constraints; Moda Health strives to minimize these variations.

***** The most current version of our reimbursement policies can be found on our provider website. If you are using a printed or saved electronic version of this policy, please verify the information by going to https://www.modahealth.com/medical/policies_reimburse.shtml *****
