General Statement

Effective immediately (March 2020), Moda Health is expanding our policies around telehealth services for our Medicare Advantage, Medicaid and Commercial membership, making it even easier and safer for patients to connect with their health care provider during the COVID-19 outbreak.

Scope

This policy temporarily supplements RPM052, “Telehealth And Telemedicine Services” due to the COVID-19 public health emergency (PHE). The policy is meant to outline the expanded coverages and changes, rather than going into the extent and detail contained in RPM052.

This policy is effective for dates of service March 6, 2020 (CMS1, 2) through varying dates depending upon line of business and state:

- Alaska Commercial plans – the expanded coverage from the state of Alaska directives has been made permanent. (See AS 21.42.422 & SCS HB 29. The Alaska section of RPM052, “Telehealth And Telemedicine Services” is also being updated.)
- Medicare Advantage plans – until directed by CMS that the temporary expanded coverage has ended.

These end dates have been extended twice and may be extended further depending upon the status of the PHE.

This policy applies to Commercial medical plans, Medicare Advantage plans, and Oregon Medicaid/EOCCO plans.

This policy does not apply to:

- Dental-only plans.
- Vision-only plans.
Reimbursement Guidelines

A. Commercial Plans

1. Telehealth services have been expanded to include communication methods that are not real-time and/or do not include audio-visual communication. Many of these are not normally a covered benefit on our standard plans. This includes:
   a. Telephone calls.
   b. Email.
   c. Provider portal communication.
   d. Instant messaging.

2. The federal government has waived HIPAA privacy requirements, so services such as Google Hangouts, FaceTime, Skype, and similar applications and services may be used during this crisis.

3. Expanded telehealth services are available for all diagnoses, not just for COVID-19 or suspected COVID-19.

4. Providers may perform telehealth services from their own home, if able and appropriate. (OHA11)

5. The usual telehealth cost-sharing requirements apply.
   a. Telehealth cost-sharing is never more than if the service was performed in person.
   b. Exception: No cost share for the visit when COVID-19 testing is performed or ordered.

6. The use of telehealth services is strongly encouraged to contain the spread of this new virus and the COVID-19 outbreak.

B. Medicare Advantage Plans

1. The patient does not have to reside in a rural location to receive telehealth services. Effective March 6, 2020. (CMS1, 2)

2. The patient can receive telehealth services in their home or any setting of care. March 6, 2020. (CMS1, 2)

3. Telephones that have audio and video capabilities may be used for telehealth.

4. Everyday communication technologies, such as FaceTime and Skype may be used during this PHE crisis.
   
   HIPAA violation penalties against providers using everyday communication technologies will be waived by the HHS Office for Civil Rights.
5. The list of telehealth services covered under Medicare has been expanded as of March 30, 2020. Medicare has added 85 new procedure codes that will be covered for telehealth services, retroactive to date of service March 1, 2020. (CMS\textsuperscript{16})
   
a. Licensed clinical social worker services, clinical psychologist services, physical therapy services, occupational therapist services, and speech language pathology services can be paid for as Medicare telehealth services.
   
b. The updated complete list of regular telehealth codes and the temporary additions for the PHE for the COVID-19 Pandemic has been posted at: \url{https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes}.
   
c. For all telehealth services performed on 3/1/2020 through the end of the PHE, CMS instructs to not use POS 02, but instead to:
      
      i. Bill with the Place of Service (POS) equal to what it would have been in the absence of a PHE.
      
      ii. Append modifier 95 (which CMS does not otherwise accept).
      
      iii. This will indicate that the service rendered was actually performed via telehealth during the PHE. (CMS\textsuperscript{18})
   
d. Modifiers for Medicare telehealth services:
      
      i. Use modifier 95 as instructed above during the PHE.
      
      ii. CMS is not requiring the “CR” modifier on telehealth services.
      
      iii. Continue to use modifiers GQ and G0 when required by current Medicare rules for traditional telehealth services:
         
         1) Furnished as part of a federal telemedicine demonstration project in Alaska and Hawaii using asynchronous (store and forward) technology, use GQ modifier
         
         2) Furnished for diagnosis and treatment of an acute stroke, use G0 modifier.
      
      iv. Critical access hospital method II claims should continue to bill with modifier GT. (CMS\textsuperscript{18})
      
      v. Cost-sharing does not apply for COVID-19 testing-related services (both telehealth and non-telehealth).
         
         1) Use modifier CS for all medical visits (telehealth or non-telehealth) related to COVID-19 testing for dates of service between March 18, 2020 and the end of the Public Health Emergency (PHE).
         
         2) For detailed information about what qualifies a visit to be related to COVID-19 testing, see \url{2020-04-07-MLNC-SE}. (CMS\textsuperscript{19})

6. E-visits are not considered telehealth by CMS; they are covered by Medicare separately from the telehealth rules.
   
   a. E-visit procedure code descriptions state “established patients” but during the COVID-19 PHE these codes may be used for new patient visits also. (CMS\textsuperscript{17})
b. E-visits do not have rural location requirements.

c. Licensed clinical social workers, clinical psychologists, physical therapists, occupational therapists, and speech language pathologists can provide e-visits and report them using HCPCS codes G2061-G2063.

d. A broad range of clinicians, including physicians can report telephone evaluation and management services using codes that have temporarily been changed to a status A (Active): (CMS17)
   i. 99441-99443 for scheduled or provider-initiated telephone contact.
   ii. 98966-98968 for telephone contact initiated by the patient, parent, or guardian.

7. Virtual check-ins (G2010, G2012) are not considered telehealth services by CMS; they are covered by Medicare separately from the telehealth rules.
   a. Virtual check-in services can be provided to new patients in addition to established patients. (CMS16)
   b. Virtual check-ins do not have a rural location requirement.
   c. Virtual check-ins do not have specific originating site limitation.

8. CMS is allowing telehealth to fulfill many face-to-face visit requirements for clinicians to see their patients in inpatient rehabilitation facilities, hospice and home health. (CMS16)

9. Any health care practitioner working for a Rural Health Clinic (RHC) or a Federally Qualified Health Center (FQHC) can furnish distant site telehealth services within the provider’s scope of practice. (CMS20)
   a. Telehealth services can be furnished from any location, including the provider’s home, during the time that they are working for the RHC or FQHC.
   b. RHCs and FQHCs must use HCPCS code G2025 (Distant Site Telehealth Services RHC/FQHC) to identify services that were furnished via telehealth during the PHE. This is a new RHC/FQHC specific G code for distant site telehealth services.

10. The usual telehealth cost-sharing requirements apply.
    a. Telehealth cost-sharing is never more than if the service was performed in person.
    b. Exception: No cost share for the visit when COVID-19 testing is performed or ordered.

11. These relaxed telehealth requirements apply to telehealth services for all diagnoses, not just for COVID-19 or suspected COVID-19.

12. Other related expanded permissions:
    a. Remote patient monitoring is not considered telehealth by CMS; it is covered by Medicare separately from the telehealth rules. CMS is making it clear that clinicians can provide remote patient monitoring services to patients with acute and chronic conditions and for patients
with only one disease. For example, remote patient monitoring can be used to monitor a patient’s oxygen saturation levels using pulse oximetry. (CMS16)

b. CMS is allowing physicians to supervise their clinical staff using virtual technologies when appropriate, instead of requiring in-person presence. (CMS16)

C. Medicaid Plans

1. Telehealth visits can be provided by telephone when appropriate during the COVID-19 crisis. The requirement for synchronous visits with both audio and video capability is temporarily waived.

2. Everyday communication technologies, such as FaceTime and Skype may be used for patient contact during this PHE crisis.
   a. Certain requirements for encryption and HIPAA violation penalties will not be enforced by federal authorities during this crisis.
   b. HIPAA compliant platforms are of course preferred when available.

3. The patient may be at home or in a health care setting.

4. CPT codes 99441-99443 & 98966-98968 (Telephone assessment and management service) are temporarily open for use by Behavioral Health providers.

5. Telehealth visits are covered for inpatient and outpatient services for new or established patients.

6. Telehealth consultations are covered for emergency and inpatient services.
   a. Limited information provided by one clinician to another that does not contribute to collaboration (e.g., interpretation of an electroencephalogram, report on an x-ray or scan, or reporting the results of a diagnostic test) is not considered a consultation. (OHA3)
   b. Consultation requirements of request from and report back to another provider must be documented to report a telehealth consultation service.

7. Providers may perform telehealth services from their own home, if able and appropriate. (OHA11)

8. Reimbursement requirements: 
   a. Bill covered telemedicine procedure codes with place of service 02. The use of telehealth POS 02 certifies that the service meets the telehealth requirements.
   b. Modifier GT is required for some behavioral health services (Please see BH Fee Schedule).
   c. The GQ modifier is still required when applicable. GQ modifier means; via Asynchronous Telecommunication systems.
   d. Modifier 95 is allowed for telemedicine services
   e. Bill with the transmission site code Q3014; (where the patient is located).
f. The evaluating practitioner at the distant site may bill for the evaluation, but not for the transmission site code.

g. For members with Medicare as primary, bill according to CMS guidelines. As secondary will process based on Medicare paid amounts, telemedicine coding doesn’t have to match OHP claims coding to pay secondary in MMIS per OAR 410-120-1280.

h. **Important information related to COVID-19 claims tracking:**

   OHA would like to track claims related to COVID-19. Please use the following modifiers for all COVID-19 related claims (telehealth or non-telehealth services):
   
i. Modifier CR: Professional claims.
   
   ii. Condition code DR: Institutional claims.

9. The usual telehealth cost-sharing requirements apply.
   
a. Telehealth cost-sharing is never more than if the service was performed in person.
   
b. Exception: No cost share for the visit when COVID-19 testing is performed or ordered.

10. These relaxed telehealth requirements apply to telehealth services for all diagnoses, not just for COVID-19 or suspected COVID-19.

**Procedure codes (CPT & HCPCS):**

For a list of telehealth services covered under Medicare, see:

(Note the CMS list at this link was updated as of March 30, 2020 @ 6:15 PM to include 85 codes temporarily added for use during the COVID-19 PHE.)

For a list of telehealth services covered under Medicaid/EOCCO, see:

For Commercial plans, here is the list of procedure codes:
(codes & key changes related to the PHE are in red font)

<table>
<thead>

<th>Type of Service</th>
<th>What is the Service?</th>
<th>HCPCS/CPT Code</th>
<th>Coding &amp; Helpful Information</th>
</tr>
</thead>
</table>
| Commercial Telehealth Visits | A visit with a provider that uses telecommunication systems between a provider and a patient. | Common telehealth services include:  
- 99201 – 99215 (Office or other outpatient visits)  
See also separate listings for:  
- Consultation services, pages 2 & 3.  
- Telehealth visit at hospital or facility, page 3. | Use POS 02.  
Modifier 95 is optional. |
| Specific Type of Visits, done by Telehealth | A visit with a provider for a specific purpose (see each code description) with the use of telecommunication systems between a provider and a patient. | 96040  
99473  
G0372  
G9156 | Use POS 02.  
Modifier 95 is optional. |
| Virtual Check-in | A brief (5-10 minutes) check-in with your practitioner via telephone or other telecommunications device to decide whether an office visit or other service is needed. A remote evaluation of recorded video and/or pictures/images submitted by an established patient.  
This is NOT an advice nurse call, this is communication with the provider themselves. | G2012  
G2010  
G0071 (RHC/FQHC equivalent of G2012 or G2010) | Use POS 02. (Audio-visual requirement is waived for the PHE.)  
Modifier 95 is optional.  
Expanded coverage during PHE for most/standard Commercial plans.  
Moda accepts Medicare HCPCS codes for Commercial plans when they are the most accurate and detailed code for the service (as in this case). |
<table>
<thead>
<tr>
<th>Type of Service</th>
<th>What is the Service?</th>
<th>HCPCS/CPT Code</th>
<th>Coding &amp; Helpful Information</th>
</tr>
</thead>
</table>
| **E-visits**    | A communication between a patient and their provider through an online patient portal. | • 99421, 99422, 99423  
• 98970, 98971, 98972 (preferred codes)  
• G2061, G2062, G2063 (acceptable codes) | Use POS 02. (Audio-visual requirement is waived for the PHE.)  
Modifier 95 is optional.  
Expanded coverage during PHE for most/standard Commercial plans.  
Code descriptions require an established patient relationship.  
For new patients, use 99201 – 99205. |
| **Telephone E/M unrelated to face-to-face E/M (established patient)** | Telephone communication between a patient and their provider.  
This is NOT an advice nurse call, this is communication with the provider themselves. | • 98966 – 98968  
• 99441 – 99443 | Use POS 02. (Audio-visual requirement is waived for the PHE.)  
Modifier 95 is optional.  
Expanded coverage during PHE for most/standard Commercial plans.  
Code descriptions require an established patient relationship.  
Code description requires call not be related to another E/M in past 7 days or lead to E/M next 24 hours or soonest available. |
| **Interprofessional consult/referral** | Professional to professional communication about a patient for the purpose of making a referral or obtaining a consult on the patient’s condition and care.  
The patient is not present for the communication. | • 99446 – 99449  
• 99451  
• 99452 | Do not use POS 02; code description is specific.  
No need to use modifier 95.  
Consultation requirements of request from and report back to another provider must be documented to use 99446 – 99449, 99451. |

Background Information
The SARS-CoV-2 virus is a coronavirus that causes the disease COVID-19. (WHO) The initial outbreak was identified in Wuhan, Hubei Province, China and later spread internationally. (CDC) The World Health Organization (WHO) declared the outbreak a Public Health Emergency of International Concern on January 30, 2020. (WHO) Then on March 11, 2020 the WHO declared COVID-19 a pandemic. (Ducharme) The Centers for Disease Control and Prevention (CDC) leads the U.S. response. The World Health Organization (WHO) guides the global response. (OHA)

The Coronavirus Preparedness and Response Supplemental Appropriations Act, as signed into law by the President on March 6, 2020, includes a provision allowing the Secretary of the Department of Health and Human Services to waive certain Medicare telehealth payment requirements during the Public Health Emergency (PHE) declared by the Secretary of Health and Human Services January 31, 2020 to allow beneficiaries in all areas of the country to receive telehealth services, including at their home. (CMS)

IMPORTANT STATEMENT
The purpose of Moda Health Reimbursement Policy is to document payment policy for covered medical and surgical services and supplies. Health care providers (facilities, physicians and other professionals) are expected to exercise independent medical judgment in providing care to members. Reimbursement policy is not intended to impact care decisions or medical practice.

Providers are responsible for accurately, completely, and legibly documenting the services performed. The billing office is expected to submit claims for services rendered using valid codes from HIPAA-approved code sets. Claims should be coded appropriately according to industry standard coding guidelines (including but not limited to UB Editor, AMA, CPT Assistant, HCPCS, DRG guidelines, CMS’ National Correct Coding Initiative (CCI/NCCI) Policy Manual, CCI table edits and other CMS guidelines).

Benefit determinations will be based on the applicable member contract language. To the extent there are any conflicts between the Moda Health Reimbursement Policy and the member contract language, the member contract language will prevail, to the extent of any inconsistency. Fee determinations will be
based on the applicable provider contract language and Moda Health reimbursement policy. To the extent there are any conflicts between Reimbursement Policy and the provider contract language, the provider contract language will prevail.
