

Specialty medication list

*An evidence-based
pharmacy program that
works for you*

All specialty medications, including those listed below, require prior authorization before they can be dispensed.

Prior authorization (PA) is the process a member follows to obtain approval from Moda Health before we can process payment for a specific medication. To request PA for your specialty medication, please contact our Pharmacy Customer Service and we'll work directly with your healthcare provider to complete this process. If you do not have the required authorization, we may deny payment for your medication.

For a complete list of drugs that require authorization log in to your myModa account at modahealth.com (after your effective date of coverage). Or, call us toll free at 844-776-1594.

Please note that we update this list as new medications enter the market and it is subject to change. You must access specialty medications through the exclusive specialty pharmacy. To enroll with Ardon Health Specialty Pharmacy, call toll free at 855-425-4085.
